

**KAMIAK BUTTE AMATEUR REPEATER ASSOCIATION  
KB7ARA**

KBARA is a support group for several privately owned linked Amateur Radio repeaters. The system covers an area from NE Washington to NE Oregon, and from western Montana to central Washington. The KBARA system is also part of the Evergreen Intertie, an interconnected group of repeaters located in western Washington and Oregon. The primary purpose of the KBARA repeaters is to provide a means for emergency communications within the above areas, and secondarily for routine radio traffic. It makes possible a single system of mobile communications coverage, extending the limited range provided by any single repeater operation. The KBARA FM repeaters operate in the VHF bands and are linked by UHF radios. The repeaters' frequencies, call signs and locations are as follows:

- 147.380 MHz W7OE on Mica Peak near Spokane, WA, owned by John, W7OE
- 147.360 MHz N1NG on Stensgar (Stranger) Mt. near Chewelah, WA, owned by Mike, N1NG, & John, W7OE
- 147.280 MHz KD7DDQ on Pikes Peak in the Blue Mountains near Walla Walla, WA, owned by Ken, KD7DDQ
